Proceedings of ISTTT24

Papers Selected from the 24th International Symposium on Transportation and Traffic Theory

July 2022

Since the first ISTTT in 1959, these symposia have become the premier outlet for the dissemination of new ideas in the science of transportation.

The 24th ISTTT continues this tradition.

Prior to their selection, the papers featured in this proceedings were subjected to a highly competitive and rigorous, multi-stage, peer-review process.

The resulting collection is comprised of papers which reflect some of the most important and innovative thinking in the field today.
